President's Message

It's hard to believe we are already 3 weeks into the new school year. For me personally, I welcomed another bright eyed group of 4th grade students into my classroom at Freewill for the 10 consecutive year. It has been a decade all ready, another thing that seems hard to believe. Time moves so fast.

However, if the proposed BOE resolution regarding the new Primary/Elementary building construction passes on the December 8th vote I may only have a few more times I welcome students into a classroom at Freewill. Depending on your perspective that could be a good or bad thing. That is why we need your input. The WTA needs to formulate a position on the new building construction and we can not do so until we hear

from you. I will be conducting separate meetings at OE, OP, and FE to gather input, as well as a portion of our District-wide meeting in October/November will be dedicated to this topic. (Dates of all above mentioned meetings TBD.)

Our three basic options as a union for political action are to support, go against, or launch a non-partisan "Get Out the Vote" campaign that neither seeks to support or defeat, but just help educate the public. Again your input is needed. You may also submit written feedback to the following email address:

BuildingProject@wayneta.org

Our WTA negotiators will also be collecting feedback this year for our contract, which expires at the end of the 2010-2011 school year. This is yet another issue where it will be

important for you to give feedback, so our negotiators can work to create a contract that best meets your needs.

A portion of the previously mentioned District-wide WTA meeting will also be dedicated for members to submit feedback on the contract.

Our Superintendent's hiring focus group members met to provide input into the desired characteristics for our next Superintendent. At that meeting Tracy DonVito and Shari Hurny were selected to serve on the interview team, which will be interviewing perspective candidates in December. The Board of Education's goal is to have our Superintendent lined up by January.

Sincerely,
Jason Carter

Get Up and Get Involved!

More than 48 million Americans - including 9 million children - have no health coverage. And with the economy in its current downturn, the situation is expected to get worse with more people losing their coverage.

NYSUT and the National Education Association, one of NYSUT's national affiliates, support health care reform that ensures that every person in America has quality,

affordable health care coverage. The unions oppose health care proposals that would tax employer-provided health benefits. NEA also supports a choice of plans and providers, both public and private.:

NEA urges members to keep up the pressure and continue to encourage your congressional representative to support health care reform that ensures quality, affordable

coverage without taxing health benefits.
